## Description

The product offers a highly effective and top-quality end result, providing a very solid, uniform finish and the ultimate performance in adhesion, coverage and elasticity, in just a few applications. Ensuring that the filler and color are maintained for a long time, without the need for extra finishing. All of this is achieved due to its formulation, based on the latest technology, with components, polymers and pigments of the highest quality. The product has a high viscosity which eases the application. Matt finish.

## Characteristics

colorless, white, dark brown, navy blue, black, medium brown, beige, light brown, cognac and mahogany

## Presentation

PACKAGE	BOX UNITS	BOX SIZES (cm)	BOX WEIGHT	PALLET UNITS	EAN CODE
Glass bottle / 25 ml 0.85 fl oz	6	14 x 10 x 11,5	0,54 kg	4620	Depends color

CUSTOMS CODE	NET WEIGHT	GROSS WEIGHT
3405100000	0,028	0,097

## How to use

1. Clean the edge of the leather you want to paint.
2. Apply a coat of paint with the Tarrago Edge Paint Roller Pen.
3. Allow to dry for 12 hours.
4. Repeat the application and apply a second or third coat if you want a more uniform edge.

Optional: You can apply Tarrago Super Deglazer before applying Tarrago Leather Edge Paint to remove any remaining dirt or lacquer.

Optional: After the first coat has been applied, you can smooth the surface with the Edge Paint Roller spatula.

## — Tips

- For a perfect finish, we recommend applying it with the Tarrago Leather Edge Paint Roller Pen.
- It is important to note that the colors can be mixed together to achieve the desired shade, but if you still can't find the right color, we recommend applying the colorless Leather Edge Paint to fill in the edge and paint it with the more than 99 colors available in the Tarrago Color Dye.
- If a thinner finish is desired, we recommend allowing 24 hours after application and lightly sanding the surface with 400-600 grit sandpaper. Be careful not to remove too much paint.
- If you wish to obtain a glossy finish you can apply a top coat with Tarrago's water-based lacquer.
- Storage temperature between 10°C and 30°C.
