How to use

1. Shake the bottle before use.
2. Mix the Soft maker with the Sneakers Paint in a 50/50 ratio.
3. With a paintbrush apply the mixture in multiple thin coats, until you obtain the desire coverage.
4. Let it dry between 3/5 minutes between layers.
5. For optimum drying, leave it dry for 12 hours.

Tips and Characteristics

- For a better result on dark surfaces, we recommend painting before with sneakers paint white and soft maker.
- To set the paint better on the surface we recommend using a heat gun or a hair dryer to dry the paint between layers and at the end.
- Can use the product mixing with sneakers paint in all fabric areas of the sneakers, but it has to be applied correctly.
